

MANIFOLD LUER LOCK CLIPS

When a single drop of fluid can make the difference in someone's health, you need smart fluid handling solutions that get the job done safely. Manufacturers worldwide rely on connector products that improve yield, cut costs and reduce time to market.

DESCRIPTION:

FlowLinX® manifold luer lock clips are the most effective solution for ensuring your male luer to female luer fitting connection remains integral while in transit or in use. Luer lock clips are designed to be used with industry standard stopcock sampling manifolds and luer lock fittings. Ensure luer lock clips are integrated into your FlowLinX® sampling manifold assembly, and sample worry free.

SPECIFICATIONS:
