Carolina Components Group, Inc.  
1001 Hill Drive, Durham, NC 27703

## CAROLINA COMPONENTS GROUP, INC. ANNOUNCES PARTNERSHIP WITH INT2 SOLUTIONS, LLC.

**Carolina Components Group (CCG)** is pleased to announce a partnership with int2 Solutions, who has been appointed the exclusive representative for CCG single-use assemblies and FlowLinX components in the New England area.

**Int2 Solutions** is a high-purity hose and fluid flow company with a superior dedication to quality, a value that CCG shares. The partnership will strengthen each company's commitment to world-class customer service by providing regional access and a comprehensive catalogue of products to customers in the New England area.

*"Int2 brings tremendous experience, technical capability, customer relationships and reputation for doing whatever it takes for a customer. These traits align perfectly with CCG core values. CCG and int2 are laser focused on providing the very best customer experience and we are very excited to partner with them in New England for all commercial activities,"* says John Cooling, CEO of Carolina Components Group.

*"Int2 Solutions is proud to be representing Carolina Components Group in New England. Our two companies have tremendous synergy, understand industry expectations and are committed to creating Raving Fans,"* says Dwight Long, CEO at int2 Solutions.

### ABOUT CAROLINA COMPONENTS GROUP

Carolina Components Group is proudly supplying critical fluid flow products for the Pharmaceutical and Biotech Manufacturing industries. We provide unique fluid handling solutions that exceed the highest standards of quality, purity, safety and efficacy. Our focus has always been the customer, on optimizing our processes to provide unmatched service. From a robust team of design engineers to our own shipping fleet, we work hard to ensure your success.

### ABOUT INT2 SOLUTIONS

Int2 Solutions, LLC is focused on meeting your needs in a professional, expert manner. We provide a comprehensive circle of engineering, product, manufacturing and fabrication solutions for high-purity environments. But more importantly, we provide superior customer service, just as our founder envisioned nearly four decades ago.
